

# THE EXCLUSIVE DIVISION

THE EXCLUSIVE DIVISION IS MICANAN'S CUSTOM SHOP, WHERE MASS PRODUCTION ENDS AND BUILD-TO-ORDER BEGINS. WITH A FOCUS ON NEW PRODUCT SEGMENTS, CUSTOMER PARTNERSHIPS AND SPECIFIC APPLICATION-BASED ENGINEERING, THE EXCLUSIVE DIVISION IS WHAT TRULY DIFFERENTIATES MICANAN FROM THE PACK.

TITAN

## TITAN

The Titan Series is Micanan's industrial line of operators aimed at the high performance and heavy industrial door markets.

- The best performing industrial door operator
- Manufactured specifically for your application
- There is no door the titan cannot open
- No springs? No problem
- Horsepower? The more the merrier
- 2 Million cycles guaranteed
- UL325 compliant

SPEC GURU

VFD SERIES

## VFD SERIES

The VFD Series introduces Micanan's commercial operator line to the world of soft-start/soft-stop and speed control.

- Imagine a variable frequency drive in your standard commercial operator
- Fully adjustable soft-start/soft-stop feature to ensure the smoothest operation
- Extends the life of the door and operator
- Installs as easily as a standard commercial operator
- No need to fuss with floor-level control panel
- UL325 compliant

## SPEC GURU

The Control Panel Series is Micanan's line of commercial and industrial floor-level wall mounted controls.

- Wall-mounted control panels built in-house to your exact specifications
- Ability to meet the most stringent specs; allow us to make your life easier
- Micanan will help you achieve your desired circuit; we like things complicated
- Panels available to suit all environmental conditions
- Works with any type of commercial/ industrial operator
- PLC, VFD, reversing starters, touch screen; micanan is the answer
- UL325 compliant

PRIVATE LABEL

## PRIVATE LABEL

The Private Label Series is Micanan's marketing approach to commercial operators.

- Branding is everything
- Make the operator part of your marketing strategy
- Micanan offers various private label solutions
- Company logo on the control box
- Company color powder coated on your operator
- UL325 compliant

TAILORED ENGINEERING

## TAILORED ENGINEERING

The Tailor-Made Series is Micanan's co-development program.

- Bring your concept to life
- Have you designed the perfect machine? We can build it
- Do you have a great idea? We'll help you design it
- Would you like our machine modified to your specs? We can do it
- Combine your field expertise with our engineering and manufacturing capabilities
- Your design will belong entirely to you
- UL325 compliant
